

Here to support you

If you want to find out more about how REGIS-TR can support your needs and ease the burden of moving trade repositories please contact us at commercial@regis-tr.com.

Key benefits

Client service excellence

- REGIS-TR's experts provide clients with constant support to ensure all needs are met efficiently to lift the burden of your reporting obligation

No portability fee

- REGIS-TR does not charge for portability from a trade repository withdrawal, this equally applies to trade data ported from aggregators and their underlying clients

Simulation pricing

- REGIS-TR clients can discuss the details of their trading volumes with their dedicated Relationship Manager who can simulate their monthly fee based on the provided information

Straightforward onboarding

- Existing REGIS-TR customers enjoy a streamlined onboarding process, while new customers are guided every step of the way

Test environments

- Start testing sooner, with our free, no-obligation test environments, to help you prepare your data for reporting

Comprehensive support

- Benefit from our detailed supporting documentation and our specialised best-in-class service support to help you with your regulatory reporting requirements

Reducing complexity

- The easy-to-use and intuitive user interface takes the complexity out of the reporting process

Looking for a CME Replacement?

As one of Europe's largest and leading trade repositories for SFTR, EMIR and FinfraG, REGIS-TR is the natural regulatory reporting provider for CME/Nex/Abide clients, offering a dedicated onboarding team to help streamline the transition process.

Our unrivalled access to in-house derivatives, securities lending, repo, and collateral management knowledge and expertise, afforded by our shareholders Deutsche Börse Group and BME, is reflected in our service design and day-to-day services.

Dedicated Onboarding Team

Our dedicated team is ready to welcome you to the onboarding process. Covering all aspects from documentation, connectivity (whether directly or via one of the many intermediaries that we partner with) and the porting of live and historic trades, we have the skills and experience to deliver a seamless experience.

Ongoing support, training, and thought leadership

Beyond the standard reporting responsibilities, we provide ongoing support, training, and thought leadership to help clients better understand their obligations. We run regular working groups; providing updates on the latest regulatory developments and system enhancements, supplementing the online training videos, guides and handbooks available to clients.

Our weekly REGIS-TR Round Up podcast offers a laid back and informative 20-minute update on relevant news and current affairs.

Next Steps...

1. Contact REGIS-TR where you will be appointed a dedicated Relationship Manager;
2. Your Relationship Manager will help explain the porting process, documentation requirements and provide a pricing simulation, upon request;
3. Complete and return the account opening documentation and Portability form;
4. Inform CME that REGIS-TR is your TR of choice

It's that easy!
